issues	9
analysis_ms	0

Severity	Type	Message	CWE	Functio
High	Uninitialized Variable	Use of i may be uninitialized	CWE-457	f
High	Uninitialized Variable	Use of a[i], sum may be uninitialized	CWE-457	f
High	Uninitialized Variable	Use of p may be uninitialized	CWE-457	f
High	Uninitialized Variable	Use of p, n may be uninitialized	CWE-457	f
High	Uninitialized Variable	Use of src, argv[1] may be uninitialized	CWE-457	main
High	Uninitialized Variable	Use of src, dst, strcpy may be uninitialized	CWE-457	main
High	Unsafe Library Call	Call to strcpy may cause overflow or command injection	CWE-120	main
High	Uninitialized Variable	Use of printf, dst, "%s\n" may be uninitialized	CWE-457	main
High	Uninitialized Variable	Use of type='int', name=ID, exprs=[BinaryOp,], op='-', FunctionCall name='argc'	CWE-457	main
